

Are you interesting in gaining education research experience?

JOIN THE CLARKE LAB TEAM!

WE ARE LOOKING FOR ...

Students who are interested in learning about:

- Equity and social justice in education
- How people learn, and how teachers develop critical consciousness
- School-based research in K–12 science classrooms
- How to support science teachers' professional growth

This position will provide the opportunity to:

- Collect, process, and analyze qualitative data (classroom observations and interviews)
- Help design learning interventions with a collaborative research team
- Receive one-on-one mentorship from graduate researchers and the principal investigator
- Build research experience for graduate school and your future career

This is for **course credit** in **EDS 199** and requires **10 hours per week**

Apply by REAL portal ID # 747
